LABSTOOLS

FIRM // FLEX SERIES

The FIRM FLEX LAB STOOL is a costeffective way to maximize the usable
workspace and increase overall adaptability
of a room. Made with high-density
polyurethane, our stools are tough enough
to withstand the broad spectrum of working
conditions that may be present in any lab
type. Firm Flex stools are height adjustable,
available with a standard-style round or
tractor-style molded seat, fixed or mobile
base and in a variety of finishes.
